WORK EXPERIENCE

Senior Software Engineer, WW International

New York, NY | January 2019 - Present

- Core developer responsible for moving the legacy Drupal 7 website off Acquia Cloud onto WW's internal AWS infrastructure.
- Led the conversion of legacy React class components into functional components with TypeScript.
- Set up CI/CD pipelines for linting, testing, and Docker deployments with Github Actions.
- Improved performance across tiers by adding Memcached for the Drupal CMS, Redis for the GraphQL API layer, and Fastly compatible Cache-Control headers for the front-end React app.
- Led a team of three engineers on development for an internal tool. Set up a Next.js application with Okta single sign-on, Ant Design components, and Vitest.

Tech Lead, Meredith (Formerly Time Inc.)

New York, NY | May 2016 - December 2018

- Maintained over ten sites serving millions of monthly users, such as InStyle, Allrecipes, Food & Wine, and Travel & Leisure.
- Key developer for a custom Drupal API module used to provide data to an Express/Handlebars front-end.
- Laid the groundwork for major features such as infinite scrolling articles, critical CSS, and automated testing.

Freelance, Cynda Media Lab

New York, NY | Aug 2015 - Present

- **MIT Remote Learning Hub:** Set up user roles in Auth0 and built React components in Storybook.
- **GUND Campaign Website:** Created a way for users to build and share custom avatars with HTML canvas.
- **Vincent Di Fate Portfolio:** Built an Angular frontend, custom Shopify theme, and custom CMS with Angular Material.

Senior Software Engineer, Lockheed Martin Desktop Solutions, Inc.

Fairfax, VA | Aug 2011 - Apr 2016

- Themed and customized over 30 Drupal websites for members of the U.S. House and Senate.
- Created custom Drupal modules to retrieve and store data from social media APIs and update that data on cron runs.
- Built a drag and drop e-newsletter wizard in jQuery Mobile.
- Performed 508 compliance testing using NVDA and added WAI-ARIA where needed to improve accessibility.

SKILLS

AI Tooling

Claude Code, Cursor, Github Copilot, AWS Bedrock, Vercel AI Gateway, LiteLLM

Web Development

HTML, CSS/SCSS, JavaScript, Web Components, TypeScript, React, Next.js, Angular, lit-html, Astro, Node.js, Express, Fastify, PHP, GraphQL, MongoDB, SQL, Drupal

Testing

Vitest, Jest, Mocha/Chai, Jasmine/Karma, Playwright, Storybook

DevOps

Vite, Webpack, Github Actions, Jenkins, CircleCI, Docker, ArgoCD, Vercel, AWS, AWS CDK, Terraform

Miscellaneous

Webflow, Framer, Figma, Squarespace, Git, Jira, Agile Development, Figma, Adobe Photoshop, Customer Service (IT Helpdesk supervisor)

EDUCATION

Cornell University, College of Engineering

Ithaca, NY | May 2011

Bachelor of Science in Information Science, Systems and Technology

TEACHING EXPERIENCE

Adjunct Professor, Fashion Institute of Technology

New York, NY | October 2023 - Present

- Rapid Prototyping with AI - Instructor for a class about the latest AI prototyping tools, including GitHub, VS Code, Claude Code, and Figma Make.
- Brand Experience Design Portfolio & UX/UI Master Program Guest Lecturer - Led several sessions on new AI techniques and best practices for various no-code website builders like Webflow, Squarespace, and Framer. Worked one-on-one with students to troubleshoot issues with their websites.

Faculty, Design Portfolio Center

New York, NY | January 2024 - Present

- Tutored students on how to better set up their web portfolios, and provided personalized critiques on the overall structure and performance of their sites.

Seminar Instructor, Rutgers University

New Brunswick | March 2023

- Designed and delivered a seminar on Selenium automation, teaching HTML DOM structure, CSS/XPath selectors, shadow DOM, and automation strategies for single-page applications.
- Guided students through practical applications, including automating form submissions and file downloads.
